PartiPak® Trays & Lids

Round base and lid styles are interchangeable

Bases and lids designed to interlock, providing secure stacking and anti-topple protection during transit

Special occasion trays feature deep side walls for capacity and security

D&W's PET is also available with up to 50% PCR

Higher Quality – Greater Clarity – More Sustainable

D&W utilizes the most modern and state-of-the-art PCR extrusion process to convert PCR into high quality FDA approved food packaging.

What does this mean for our customers?

- Premium quality sheet with fewer imperfections than others in the market
- Clear PET packaging, with optics mimicking that of virgin PET
- Higher utilization of recycled PET that would have otherwise gone to a landfill
- Better security of supply vs. the competition since our state-of-the-art extrusion process allows for a broader range of input materials
